Lexology Client Choice 2022 – winners announced

London, United Kingdom – The winners of the 2022 Lexology Client Choice Awards were announced on 15th November 2022. Established in 2005, Client Choice recognises those individuals around the world that stand apart for the excellent client care they provide and the quality of their service. The criteria for this recognition focus on an ability to add real value to clients’ business above and beyond the other players in the market. Uniquely, lawyers can be nominated only by corporate counsel, with this year’s winners chosen from a pool of more than 2,000 individual client assessments.

The Lexology Client Choice website is a fully searchable online resource and includes quotes from satisfied customers in the “What clients said” section. Our extensive research has been specially designed to assist clients in finding the best lawyers for client service worldwide and facilitate referrals between client service-focused law firms.

Winners will be honoured at a gala dinner in London in early 2023.

Lexology Client Choice 2022

This year, Client Choice recognises 651 winners across 70 jurisdictions worldwide. Client Choice also recognises winners at state and province level in the United States and Canada. This year, 91 winners across 10 US states and Canadian provinces have been recognised.

To view all 2022 winners, please visit www.ClientChoice.com.

Methodology

Our research begins with a readership survey of in-house counsel subscribers to Lexology, but we also gather feedback at several international in-house counsel events and via the Lexology Client Choice website. Clients are asked to rate individuals on the following client service criteria: quality of advice, commercial awareness, industry knowledge, strategic thinking, billing transparency, tailored fee structures, value for money, responsiveness, effective communication, clarity of documentation, sharing of expertise, appropriate staffing, project management, use of technology, loyalty and ethics. To ensure that the results cannot be influenced, law firms are not informed when this initial round of research is conducted.

The results of this survey are used to draw up shortlists by country and work area, and shortlisted candidates are then invited to submit up to five client referees. The research team conducts follow-up interviews and additional research where necessary. While based on thorough and coherent research, the results remain the subjective views of the Client Choice team.

About Lexology
